MURNIA™

Murnia™ Recovery Cream is formulated with patented “Murnia™ Active Ingredient”

- ✓ Supports healthy skin maintenance
- ✓ Soothes, calms and conditions the skin
- ✓ Relieves discomfort from dryness and stretching
- ✓ Good for atopic prone skin

Murnia™ Recovery Cream is effective and safe to use

Murnia™ Recovery Cream can be used to support maintenance of skin health. It is formulated to work on a wide range of skin types including atopic prone skin. It helps protect skin from irritants such as heat, body fluid and friction. It relieves feeling of dryness and stretching and is tested for sensitive skin.

Murnia™ Recovery Cream is formulated carefully and scientifically for effectiveness and safety of ingredients. It does not contain toxic, harmful, or petroleum-based ingredients. Extensive safety testing has been conducted. Good for use on children.

Directions

Use at least twice per day. Apply to clean, dry skin each time. Use during the day and reapply at night before going to bed.

Murnia™ Difference

All Murnia™ products are formulated and produced with three main principles:

Patented invention

Our invention, patented Murnia™ Active Ingredient with unique prevention and regeneration benefits is developed through extensive bio-technology R&D and is in every Murnia™ product.

Clean

Murnia™ formulas do not contain toxic, unclean, synthetic, or petroleum-based ingredients. We believe no one, especially immune compromised individuals, should be exposed to these ingredients and test for their absence in our products: our “No” promise.

Easy to Use

Murnia™ products are designed for simplicity, safety and ease of tolerance to enable consistent use.

About Us

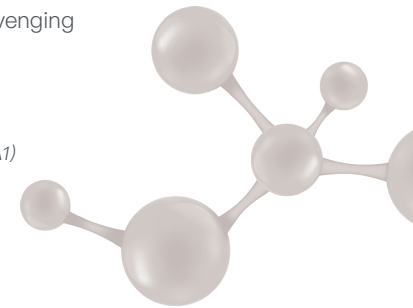

Murnia™ is a brand of Umayana LLC, USA. Murnia™ products are designed to support help restore, rejuvenate, regenerate health of the skin and mucosa. Umayana LLC consists of members with 35 years of biotechnology, R&D and consumer experience with a mission to provide effective and safe supportive care and beauty. Our goal is to provide real and significant impact to people’s well-being, even when they are dealing with tough health issues. Current R&D developments are under way for several conditions in cooperation with health care professionals.

Patented Murnia™ Active Ingredient

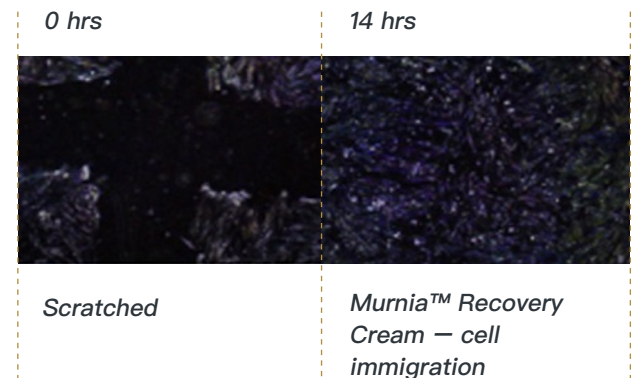

- ✓ Antioxidant: ROS scavenging
- ✓ Regenerative
- ✓ Protective

Global Patent: WO2020072987 (A1)

USA Patent: 11331360 (B2)

In-vitro efficiency and gen analysis show high regenerative effect of Murnia™ Active Ingredient through increasing elastin and collagen synthesis.

Results of clinical observational trial of “Murnia™ Recovery Cream” is published in American Integrative Dermatology Symposium, CA – USA, 2018.

“Formulation of an Emulsion Based Revitalizing Cream and Implementation Evidence Based Practice in the Prevention of Radiodermatitis.”

We believe no one, especially immune compromised individuals, should be exposed to toxic, non-clean, synthetic or petroleum-based ingredients. We do not use those ingredients when designing our formulas, but also test for their absence. That is how seriously we take our “No” promise.
